

Hakim Samir Hakim

Network Engineer

+201031445305 | El-Marg, Cairo | hakimsamir2002@gmail.com | [LinkedIn](#)

Summary

- Network Engineer with hands-on experience as an IT Technical Support, backed by strong academic and practical training through university studies and professional programs at the National Telecommunication Institute (NTI) and the Digital Egypt Pioneers Initiative (DEPI), Seeking an entry-level role to leverage technical skills, optimize network performance, and contribute to building secure and efficient IT infrastructure.

Experience

IT Technical Support – Nissan Xpress Egypt (Jun 2026 - Present)

- Provide technical support to 100+ end-users through on-site and remote assistance using AnyDesk and TeamViewer.
- Resolve hardware, software and OS issues across desktops, laptops, printers and IP phones.
- Configure and troubleshoot routers, switches, and wireless access points to ensure stable network performance.
- Install and configure software applications and Windows operating systems, while setting up and deploying new user devices.
- Configured and managed CCTV systems, including IP cameras, NVR/DVR, and storage allocation, ensuring continuous uptime and data retention.

Education

- **Benha University, Faculty of Computers and Artificial Intelligence (Sep 2020 - May 2024)**
B.Sc. in Computers and Artificial Intelligence, Information Security and Digital Forensics major.
- **Cumulative GPA:** 3.28/4.00 (Very Good).
- **Graduation Project Grade:** A+ (Excellent).
- **Graduation Project: Signature-Based Network Intrusion Detection System (NIDS)**
 - Developed a signature-based NIDS using Python.
 - Monitored and analyzed network traffic to detect malicious patterns.
 - Designed a website to enhance cybersecurity by identifying known threats.
 - Implemented automated incident reporting for threat detection.
 - Improved visibility of network threats and response efficiency.
 - Technologies Used: Python, Ubuntu, Kali Linux, MySQL, XAMPP, HTML5, CSS3, JavaScript, PHP, and Laravel.

Courses & Training

- Digital Egypt Pioneers Initiative (DEPI) – 6 Months Program
Cyber Security Incident Response Analyst, under the Ministry of Communications and Information Technology (MCIT), Jul 2026 - Present.
- The summer training HCIA-Security (Huawei Network Academy), Jul 2023 - Sep 2023.
- Front-End Web Development Diploma by (Route IT Training Center), Jul 2022 - Dec 2022.
- The summer training HCIA-Routing & Switching (Huawei Network Academy), Jul 2022 – Sep 2022.
- The summer training Cisco Cybersecurity (NTI), Jul 2022 - Aug 2022.

Technical Skills

- **Networking:** TCP/IP, VLANs, DHCP, DNS, Routing and Switching.
- **Security:** Cybersecurity fundamentals and Network security.
- **Operating Systems:** Windows, Linux and Ubuntu.
- **Tools:** Cisco Packet Tracer, Visual Studio, Wireshark, VMware Workstation.
- **Programming Languages:** Python, JavaScript.
- **Web Development:** HTML5, CSS3, Bootstrap 5.

Soft Skills

- Communication, Time Management, Problem Solving, Collaboration, Adaptability.

Languages

- **Arabic:** Native.
- **English:** Very Good.

Certifications

- CompTIA Security+, (Apr 2026)
- CCNAv7 (Cisco): Switching & Routing, Enterprise Networking, (Apr 2024) [!\[\]\(c6a8736a601a632e2c96605cf66055ed_img.jpg\)](#)
- Network Security, (Apr 2024) [!\[\]\(64ef2b19d70b31fbbfce0e0e2aa3d7b4_img.jpg\)](#)
- Cybersecurity for beginners, Mahara-Tech ITI, (Dec 2023) [!\[\]\(9ba1c633ca37327550476fd7d0d00348_img.jpg\)](#)
- Front-End Diploma - Route IT, (Dec 2022) [!\[\]\(9123a11efb62a56709757215846100c3_img.jpg\)](#)
- CCNAv7 (Cisco): Introduction to Networks, (Oct 2022) [!\[\]\(81ed9b526bb4d794d4b41c492b59462a_img.jpg\)](#)
- CyberOps Associate – NTI, (Aug 2022) [!\[\]\(73ff443d232f42a7f7c62fc0b625b197_img.jpg\)](#)
- Cybersecurity Training – NTI, (Aug 2022) [!\[\]\(1875783f027eea357c44cf6b28874dc9_img.jpg\)](#)

Additional information

- **Military Status:** Completed.
